

Sunscreen Information

Summer is here and it is time to talk sunscreen protection for the children. We encourage the parents to apply sunscreen in the A.M. before coming to the Ark. We will apply sunscreen on your child at noon. (If your child comes in after this time you will have to make sure your child is protected.) We buy the sunscreen by the gallon so you don't have to remember it daily and we don't have to sort through the colored bottles. Please read the attached information and return the top form with your signature. If you have questions, please do not hesitate to speak with Colleen or Jenny. Thank you,
